Author and crime writer Mark Jones presents the stories, and criminal minds, of nine serial offenders who terrorized South Carolina during the latter part of the twentieth century. The "Super Christian"? who turned a small beach community into a terrified town. The "Gaffney Strangler"? who taunted police with the message,

The Ferghana Valley can reasonably be said to lie in the heart of Central Asia. As such, the Valley has made an inordinate contribution to the history and culture of the region as a whole, as well as significantly affecting the economic, political and religious spheres. This book

looks at the region over time, from its early history to the present. It embraces not just the obvious fields of politics, economics and religion, but also ethnography, sociology and culture, and includes the insights of leading scholars from all three Ferghana countries. The book discusses various questions of

identity relating to the region, showing how the identity of the Ferghana Valley relates to the emerging national identities of the three post-colonial states that are still gradually emerging from the demise of the Soviet Union, as well as how an understanding of the Ferghana Valley is key to understanding Central Asia itself.
