Hello, I happened upon a KLH R5100 receiver at an auction recently with no manual or remote. For the price I couldn't pass it up. I also had high hopes of using the coaxial digital input in conjunction with the SP/DIF output of my laptop docking station so I could scrap the configuration of sending analog audio out of my laptop's headphones jack and into my old Pioneer receivers RCA analog ...

Hey Sether, I don't have 5100, but own R5000 which is basically the same thing. What you need to do is one in DVD mode, press MODE/SET button in the middle of the unit to select between input/sleep/dim. Once in input - it will say "optical" rotate the outside ring (the one around MODE/SET button) till you see word COAXIAL.
