Kop-Flex Series H Gear Couplings - SHK Mandiri

Series H couplings of Size 8 to 30 are designed for $\pm 1/2^\circ$ misalignment per flex half coupling, to compensate for misalignment between the shafts in a full-flex coupling. Series H couplings can be supplied in full-flex, flex-rigid, floating shaft and spacer arrangements as well as custom designs. Only exposed bolt flanges are available in sizes 8 to 30. The straight-faced, involute stub tooth form is used in the Series H coupling, sizes 8 to 30.
