What was life like in occupied Holland during World War II? What was it like for a nation to find itself overwhelmed by a foreign power? How did people survive the repressive Nazi occupation? This compelling first-person account is an eye-opening experience. As seen through the eyes of twelve-year-old Cornelia, *Hunger In Holland* chronicles the steady deterioration of normal, everyday life; the loss of freedom and security; and the role of the law as food and many of life's amenities became scarce. Young Cornelia takes on the responsibility of begging for food and helping to hide her father from the Nazis, who had shipped every man they could find to the munitions factory to work for the Nazi war effort. She captures the day-to-day struggle for survival and vividly illustrates the strength, ingenuity, and dogged determination needed to carry on. Fuykschot sketches the changing lives of ordinary people; their efforts to go to school, to work, to clean house, to find food, to maintain some semblance of normalcy against a backdrop of bombing raids and the daily terror of the Nazis. *Hunger in Holland* is a moving description of a horrific period in world history, a testament to those who survived, and a valuable lesson for those who have never known the terror of war. Cornelia Fuykschot (Gananoque, Ontario) is a retired secondary school teacher. *touching. memoir* -Publishers Weekly A wealth of fascinating details about gradual adjustments downward, the coping skills developed by all, and the

For the aficionado of farm equipment, or the scion of an old farming family nostalgic for the old days, or the grown-up boy who still loves a classic piece of old-time machinery, the vintage tractor can be a thrilling find like no other. This book tells dozens of stories of such discoveries, of the treasured old tractor parked in a shed since 1927, of the pristine model unearthed at an estate sale, of the broken-down old beauty stashed in a barn where generations of children have made their secret hideaways. These are the classic tractors that are often as hard to find as a needle in a haystack—but far more fun to discover, as all of these delightful stories make abundantly clear.

From the acclaimed author of *Wicked River* comes *Storm Kings*, a riveting tale of supercell tornadoes and the quirky, pioneering, weather-obsessed scientists whose discoveries created the science of modern meteorology. While tornadoes have occasionally been spotted elsewhere, only the central plains of North America have the perfect conditions for their creation.

For the early settlers the sight of a funnel cloud was an unearthly event. They called it the Storm King, and their descriptions bordered on the supernatural- it glowed green or red, it whistled or moaned or sang. In Storm Kings, Lee Sandlin explores America's fascination with and unique relationship to tornadoes. From Ben Franklin's early experiments to the great storm war of the nineteenth century to heartland life in the early twentieth century, Sandlin re-creates with vivid descriptions some of the most devastating storms in America's history, including the Tri-state Tornado of 1925 and the Peshtigo fire tornado, whose deadly path of destruction was left encased in glass. Drawing on memoirs, letters, eyewitness testimonies, an

Watching the kite ascend higher into the sky, ten-year-old Raghav felt butterflies run deep down his gut, inflating his desire to fly high in a supersonic jet. His kite, entangled with another, crashed onto the ground. The flight took off smoothly from the runway of her heart, only to be hit by turbulence and thunderstorms smashing the plane into an abandoned sea full of gloominess. There he saw a lighthouse, a ray of hope. She became his lifeguard and taught him to swim through the storm. Like a guiding angel, she enlightened him towards the path of self-discovery leading to his journey to the island called ' Bollywood. ' Raghav rode on a roller coaster encompassing love, passion, and conflicts. Hopping from one town to another in search of his purpose, he landed in the city of love and lights, Paris, where he saw the horizon, an illusion of his world merging with hers.
