Your dryer provides sensor drying and manual drying programs. Sensor Dry Dryer electronically senses laundry moisture level and automatically determines operation time based on the dryness of the load and the selected program. The control will change the estimated time remaining if it senses a large change in the time needed to complete the cycle.

No heat (not heating) or not enough heat is the most common symptom for LG dryers. It takes 15-30 minutes to fix on average with this service manual. So, if your LG does have enough heat to dry clothes, not producing any heat, won't stay hot enough to dry clothes, needs a new driver belt or any other symptom, this service manual is essential to ...

[LG dryer service manual](#)

The LG dryer works great, easy to use and controls. The blue light you can have on looks pretty cool. Clothes come out fresh (combined with LG compact washer). The unit looks and works great. Two things to be aware of: 1) The stacking kit they suggest you buy in store only fits the full size washer set, so you won't need it.
