Librarians Manual

This manual was written to be used by Librarians, Academic Liaisons and others enrolled in the Mendeley Certification Program for Librarians. New users of Mendeley may consult this document throughout the certification program as required. This manual is intended to provide an overview of Mendeley ' s features, but should not be regarded as exhaustive.

Librarian Manual: How to merge two author profiles. Each author name is unique and has its own profile. Sometimes various data sources use slightly different spellings of an author name (e.g. JK Rowling vs J.K. Rowling vs Joanne Kathleen Rowling). To merge two author profiles, edit the data for the profile that should be discarded, and change the name to be the exact same spelling (copy/pasting helps here) of the profile that it should be merged into.

While The Python Language Reference describes the exact syntax and semantics of the Python language, this library reference manual describes the standard library that is distributed with Python. It also describes some of the optional components that are commonly included in Python distributions. Python ' s standard library is very extensive, offering a wide range of facilities as indicated by the long table of contents listed below.
