Linear low-density polyethylene -
Wikipedia

Linear Low Density Polyethylene
(LLDPE) is blended form of LDPE.
This form of polyethylene tubing
provides much more flexibility, tensile
strength, and more conformability.

Get Free Linear Low Density Polyethylene Lldpe

LLDPE tubing is also the most flexible of the plastic sheeting films, while providing increased softness and pliability. LLDPE is used for numerous applications and can be blended into other films to give them more flexibility and extra strength.
