Charlie has never had it easy. Between the constant moving and the incessant fat comments and jokes from her father, her self-worth is nonexistent. Her reflection in the mirror shows her nothing but a plain Jane. Music is the only thing that keeps her sanity in check. Charlie catches the eye of the town star quarterback, Maverick. With her curves, her brunette hair, and the voice of an angel, Maverick, has never met anyone like her. Everything that is different about Charlie just makes Maverick, like her more. Unfortunately, Charlie doesn't see it herself. Proving it to her may seem harder than he thinks, especially when tragedy strikes and tears them apart.

As enrollment numbers continue to grow for online education classes, it is imperative instructors be prepared to teach students from diverse groups. Students who engage in learning in classrooms where their backgrounds are recognized and the instruction is welcoming and all-inclusive perform better. Individuals who teach in online settings must endeavor to create caring and culturally appropriate environments to encourage learning among all students irrespective of their demographic composition. Care and Culturally Responsive Pedagogy in Online Settings is a collection of innovative research on the incorporation of culturally sensitive teaching practices in online classrooms, and how these methods have had an impact on student learning. While highlighting topics including faculty teaching, restorative justice, and nontraditional students, this book is ideally designed for instructors, researchers, instructional designers, administrators, policymakers, and students seeking current research on online educators incorporating care and culturally responsive pedagogy into practice.

Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile entertainment issues and trends.

A father's memoir of a brave 17-year-old boy in his fight with a brain tumor that took his life.

An Instant New York Times, Washington Post, USA Today, San Francisco Chronicle, and Publishers Weekly Bestseller! #1 Canadian Bestseller Just as she did in her groundbreaking bestseller *The Vagina Bible*, Dr. Jen Gunter, the internet's most fearless advocate for women's health, brings you empowerment through knowledge by countering stubborn myths and misunderstandings about menopause with hard facts, real science, fascinating historical perspective, and expert advice. "I feel more equipped to care for my patients, challenge the patriarchy, and empower & educate thanks to her work and advocacy." —Dr. Danielle Jones (Mama Doctor Jones) "An exhilarating read and a comprehensive review of all things menopause." —North American Menopause Society "Gynecologist Gunter (*The Vagina Bible*) helps women navigate the ins and outs of menopause in this delightfully conversational and strongly feminist guide. Readers looking to separate menopausal fact from fiction should take note." —Publishers Weekly "Gunter mixes sound medical information with a bit of humor and a lot of candor...[this] frank and expert guide provides an informative and reassuring look at a long, often baffling and infuriating phase of life." —Booklist The only thing predictable about menopause is its unpredictability. Factor in widespread misinformation, a lack of research, and the culture of shame around women's bodies, and it's no wonder women are unsure what to expect during the menopause transition and beyond. Menopause is not a disease—it's a planned change, like puberty. And just like puberty, we should be educated on what's to come years in advance, rather than the current practice of leaving people on their own with bothersome symptoms and too much conflicting information. Knowing what is happening, why, and what to do about it is both empowering and reassuring. Frank and funny, Dr. Jen debunks misogynistic attitudes and challenges the over-mystification of menopause to reveal everything you really need to know about: *Perimenopause * Hot flashes * Sleep disruption * Sex and libido * Depression and mood changes * Skin and hair issues * Outdated therapies * Breast health * Weight and muscle mass * Health maintenance screening * And much more! Filled with practical, reassuring information, this essential guide will revolutionize how women experience menopause—including how their lives can be even better for it! "Read this book immediately." —New York Times bestseller Ayelet Waldman, author of *A Really Good Day* and *Love & Treasure* "This is the new 'it' book for women who want to prepare for or understand what menopause is (and isn't)." —Dr. Jennifer Lincoln

Margaret Guenther shares with the reader a loving and evocative meditation on the experience of spiritual direction from the perspective of a wise and hospitable spiritual director, who is also a woman, wife, mother, teacher, and priest.

Love and Vulnerability: Thinking with Pamela Sue Anderson developed out of the desire for dialogue with the late feminist philosopher Pamela Sue Anderson's extraordinary, previously unpublished, last work on love and vulnerability. The collection publishes this work for the first time, with a diverse, multidisciplinary, international range of contributors responding to it, to Anderson's oeuvre as a whole and to her life and death. Anderson's path-breaking work includes *A Feminist Philosophy of Religion* (1998) and *Re-visioning Gender in Philosophy of Religion: Reason, Love and Epistemic Locatedness*

(2012). Her last work critiques, then attempts to rebuild, concepts of love and vulnerability. Reason, critical self-reflexivity, emotion, intuition and imagination, myth and narrative all have a role to play. Social justice, friendship, conversation, dialogue, collective work are central to her thinking. Contributors trace the emergence of Anderson's late thinking, extend her conversations with the history of philosophy and contemporary voices such as hooks and Butler, and bring her work into contact with debates in theology; Continental and analytic philosophy; feminist, queer and transgender theory; postcolonial theory; African-American studies. Discussions engage with the Me Too movement and sexual violence, climate change, sweatshops, neoliberalism, death and dying, and the nature of the human. Originally published as a special issue of the journal, *Angelaki*, this large, wide-ranging collection, featuring a number of distinguished contributors, makes a significant contribution to the burgeoning interdisciplinary research on interpersonal relations, sympathy and empathy, affect and emotion.
