Making Babies offers a proven 3-month program designed to help any woman get pregnant. Fertility medicine today is all about aggressive surgical, chemical, and technological intervention, but Dr. David and Blakeway know a better way. Starting by identifying "fertility types," they cover everything from recognizing the causes of fertility problems to making lifestyle choices that enhance fertility to trying surprising strategies such as taking cough medicine, decreasing doses of fertility drugs, or getting acupuncture along with IVF. Making Babies is a must-have for every woman trying to conceive, whether naturally or through medical intervention. Dr. David and Blakeway are revolutionizing the fertility field, one baby at a time.

Fertility medicine today is all about aggressive surgical, chemical, and technological intervention, but Dr. David and Blakeway, a licensed acupuncturist, know a better way. "Making Babies" is a must-have for every woman trying to conceive, whether naturally or through medical intervention.

Packed with 480 beautiful pages of research about fertility, conception, morning sickness, pregnancy, birth, nursing, postpartum issues, losing weight, and more.

Comforting and intimate, this "girlfriend" guide to getting pregnant gets to the heart of all the emotional issues around having children—biological pressure, in-law pressures, greater social pressures—to support women who are considering getting pregnant. Trying to get pregnant is enough to make any woman impatient. The Impatient Woman's Guide to Getting Pregnant is a complete guide to the medical, psychological, social, and sexual aspects of getting pregnant, told in a funny, compassionate way, like talking to a good friend who's been through it all. And in fact, Dr. Jean Twenge has been through it all—the mother of three young children, she started researching fertility when trying to conceive for the first time. A renowned sociologist and professor at San Diego State University, Dr. Twenge brought her research background to the huge amount of information—sometimes contradictory, frequently alarmist, and often discouraging—that she encountered online, from family and friends, and in books, and decided to go into the latest studies to find out the real story. The good news is: There is a lot less to worry about than you've been led to believe. Dr. Twenge gets to the heart of the emotional issues around getting pregnant, including how to prepare mentally and physically when thinking about conceiving; how to talk about it with family, friends, and your partner; and how to handle the great sadness of a miscarriage. Also covered is how to know when you're ovulating, when to have sex, timing your pregnancy, maximizing your chances of getting pregnant, how to tilt the odds toward having a boy or a girl, and the best prenatal diet. Trying to conceive often involves an enormous amount of emotion, from anxiety and disappointment to hope and joy. With comfort, humor, and straightforward advice, The Impatient Woman's Guide to Getting Pregnant is the bedside companion to help you through it.

In The Infertility Cure, Dr. Lewis outlines her simple guidelines involving diet, herbs, and acupressure so that you can make use of her experience and expertise to create a nurturing, welcoming environment for a healthy baby. Dr. Randine Lewis offers you a natural way to support your efforts to get pregnant. The Infertility Cure addresses: Advanced maternal age Recurrent miscarriage Immunological fertility problems Male-factor infertility Hormonal imbalances and associated conditions Anovulation, lethal phase defect, amenorrhea, unexplained infertility Endometriosis, polycystic ovaries, tubal obstruction, uterine fibroids Improving the outcome of assisted reproductive techniques The Infertility Cure opens the door to new ideas about treating infertility that will dramatically increase your odds of getting pregnant -- the natural way.

Infertility medicine today is all about aggressive surgical, chemical and technological intervention. But making babies originally was - and is still best as - a natural process. In the UK it is estimated that approximately 1 in every 6 couples have difficulty conceiving and 1 in 80 babies is born as a result of IVF treatment. While 75% of people seeking help with their fertility try alternative treatment, few doctors are aware of how the disciplines of Western and Eastern fertility treatment can be used together to achieve the best results. This is a unique collaboration that combines the best of Dr David's and Jill Blakeway's expertise. In THE FERTILITY PLAN they show that half of women who use IVF could have got pregnant without it if the right knowledge and advice were available to them, and they share their proven 3-month plan to help couples conceive a baby as naturally as possible.

A practical and evidence-backed approach for improving egg quality and fertility— fully revised and updated in 2019. The latest scientific research reveals that egg quality has a powerful impact on how long it takes to get pregnant and the risk of miscarriage. Poor egg quality is in fact the single most important cause of age-related infertility, recurrent miscarriage, and failed IVF cycles. Based on a vast array of scientific research, It Starts with the Egg provides a comprehensive program for improving egg quality in three months, with specific advice tailored to a variety of fertility challenges—including endometriosis, unexplained infertility, diminished ovarian reserve, PCOS, and recurrent miscarriage. With concrete strategies such as minimizing exposure to common toxins, choosing the right vitamins and supplements to safeguard developing eggs, and harnessing nutritional advice shown to boost IVF success rates, this book offers practical solutions that will help you get pregnant faster and deliver a healthy baby.

The first comprehensive look at the groundbreaking field of energy medicine and how it can be used to diagnose and treat illness, from one of the world's foremost practitioners of Traditional Chinese Medicine. Today, more of us than ever are discovering the curative powers of energy medicine. Scientific studies continue to confirm its validity, and medical doctors are regularly prescribing treatments such as acupuncture to their patients. But even for those of us who have benefitted from such treatments, the question remains: what exactly is energy medicine, and how does it work? Acupuncturist and Traditional Chinese Medicine (TCM) scholar Jill Blakeway has been treating patients for more than twenty-five years. For Jill, the term "energy medicine" refers to the wide range of healing modalities used to diagnose and treat illness by manipulating the energy—the vital life force referred to as "qi" in TCM—that pulses through the cells of our bodies. But even this seasoned practitioner admits she doesn't truly understand how some of her patients are healed under her care, and retains a healthy skepticism about her own abilities as well those of her peers. In Energy Medicine, Jill invites us on her global journey to better understand, apply, and explain this powerful healing force. Moving from her own clinic to the halls of academia, she talks to top healers, researchers, and practitioners—from the Stanford and Princeton professors researching the physics behind energy medicine and healing; to a Chinese Qi Gong master who manifests healing herbs directly from her palm; to a team of skeptical scientists who use "hands on" healing to repeatedly cure mammary cancer in mice. She also tells the story of how she discovered energy medicine and became one of the most sought-after healers in the world. Lively, entertaining, and informative, told in Jill's funny, relatable, and wholly grounded voice, Energy Medicine bridges the gap between science and spirituality and offers a persuasive, evidence-based case that advances this ancient healing practice.

Doctors and researchers are increasingly learning that by the time a woman gets pregnant, she may have already missed a critical window of opportunity to give her baby the best start in life. In this friendly and authoritative guide, Dr. Michael C. Lu, an expert in the field, offers a step-by-step prepregnancy plan that will help you have a safer pregnancy and a smarter and healthier child. Dr. Lu's plan explains how you can help prevent pregnancy complications such as gestational diabetes or preeclampsia, and minimize the likelihood of many childhood conditions, from asthma to autism. His expert advice includes: Ten brain foods you should eat more Ten toxic foods to avoid Ten steps to strengthen your stress resilience Ten steps to tune up your immune system Ten steps to detoxify your environment And much more!
