How to Use Bloom's Taxonomy in the Classroom: The Complete Guide is your one-stop shop for improving the quality of the lessons, questions, activities and assessments you plan. Never before has there been such a detailed, practical analysis of the taxonomy - of how it works, why it works and how you can use it to raise achievement in your classroo

Cyber attacks are on the rise. The media constantly report about data breaches and increasingly sophisticated cybercrime. Even governments are affected. At the same time, it is obvious that technology alone cannot solve the problem. What can countries do? Which issues can be addressed by policies and legislation? How to draft a good law? The report assists countries in understanding what cybercrime is about, what the challenges are in fighting such crime and supports them in drafting policies and laws.

DIY Inventions by Richard Cromwell Guides an Inventor through ALL the Invention "Success Steps" to develop an initial idea into a new product which will earn an income. How to Evaluate your idea to see if it will earn money. How to select your best idea to start the Invention Success Steps, How to check to see if your Invention is in the market place, How to Check the Patents Office for your Inventions, How to Draw the Inventions, How to Write Technically about how your idea works, How to Protect the Inventions in the World Wide Patent System, How to find Manufacturers to produce & package your inventions, Author, Richard Cromwell, has been promoting inventions for 34 years and has been through all the combinations of inventions, ideas, promotion companies and manufacturers, as well as earning royalties. Not all ideas will make it in the market place. So how do you know if your idea is the one that will make it to market? THAT IS WHAT THIS BOOK IS ALL ABOUT. There are plenty of Invention Books quoting all the "Rules." This Invention Book does it differently. It is a practical guide with easy straight forward steps that show you "How To" and then instructs you in the fine detail. All written in layman's terms, with full illustrations. Remember you may have a great new invention but if it can't earn any money then put it on the shelf for a rainy day. Ask yourself: "Will anyone buy my idea," or "Will it sell 100,000 or a million items or more?" If your answer is NO to these questions then forget it. Invent another idea. GREAT IDEAS are great because they make a great heap of money. Make sure you fit into this category of "GREAT." START MARKETING YOUR OWN INVENTIONS TODAY

Everyone warned Emma about Dean. Even his own family doesn't trust him, but Emma can't help falling in love with her best friend's brother, so when Dean breaks her heart, she knows she only has herself to blame. Eight years later Emma has a new man in her life, a single parent like herself. But when she accepts a job on Lord Howe Island, her past and Dean, catch up with her.

A quick look-up reference for ECG interpretation and management! This indispensable guide presents the basics (anatomy and physiology of the cardiovascular system, electrical conduction system of the heart, basic ECG concepts and components,) ACLS and CPR algorithms, emergency medications, and comprehensive information on monitoring leads and interpretation of over 100 ECG strips, including 12-lead and pacemaker rhythms.

The only guide written exclusively for this specialized market, this title provides the most up-to-date marketing resource information available to beginning and advanced writers, freelancers, editors, publishers, publicists, and all others interested in, or involved with, writing.

The poetics of religious experience investigates creativity of a particular kind, namely explorations in the language of symbols and metaphors, which constitute the core ideas and vision of a religious tradition. In examining the symbolic and imaginative features of the poetics of religious experience, the author of this essay draws attention to a number of critical issues - literary, philosophical, and historical - which lie behind various interpretations of Islam, and their relevance to the intellectual needs of the Muslim world today. Although these themes are addressed in the Islamic context, they are, in fact, of seminal importance to the more general problem of knowledge and interpretation, and in the wider field of comparative religion, human psychology, and culture.

Amsterdam 1654: a dangerous secret threatens to destroy a young widow's new life.
