Microsoft Office Visio Professional 2007 uninstall did not complete successfully I've tried repairing and uninstalling several times each, always with the same results. I'd like to do a clean install but that option isn't available when I run setup from the CD -- it only offers three choices: add/remove features, repair or uninstall.

In my case the XML file is included in my ZIP of the Office 2013 installation that I uploaded to KACE for the distribution. My install.bat file then runs the commands to uninstall 2010. If you are looking for a method to just uninstall 2010 then I would probably create a script and upload the XML as a dependency.
