Truth is ever to be found in simplicity and not in multiplicity and confusion of things. I have just three things to teach or say: to the contemporary Humans that simplicity, Patience and compassion are the three building blocks of humanity. Simplicity and humanity are the ultimate sophistications of human civilization. They are the essence of happiness since great acts are made up of small deeds. All I have is a sense of duty toward all people and attachment to

those with whom I have become intimate. Thus the next evolutionary step for me that mankind is to be more from man to kind. Earth provides enough to satisfy every man's need not everyman's greed. Hence I have taken up writing books to mould other beings to be humans not as savage since we Hominids were savage in early stage and now it is high time to turn out ourselves into humans. Simplicity, which is the essence of happiness, is great act of humans for doing small deeds. Right from retirement as an Audit Officer from the Office of the Principal Accountant General Audit Andhra Pradesh Hyderabad, on 01-07-2003, I studied LL.B, at the evening age of 60 to 69 years while writing certain controversial books like (i) "Human Life-A Philosophical Audit, (ii) We Think Therefore We Are", (iii) "My Mind is My Mosque" (iv) "Tears of Terrorism" (v) "After all Whose Life is It any Way?" (a book on Euthanasia) (vi) "Know your India-Open a new Page for writing Nationalism" (for India's Nationalism) (vii) Paradise Lost (a real life story of a Jihadists killing his own mother in Syria for the sake of Blessing of Paradise by the Allah) (viii) "Spicy Trade" (How India was subjected to Invasion by Arabs, Europeans and finally tampered One India into Three viz. Pakistan, India and Bangladesh, (ix) "Father Turns Monster" (real story relating to a father to save his child by killing innocent peoples and plucked their organs like Lungs and Heart and used for Transplantation and replacement of his sons Lungs and Heart") (x) "Tridevi Trident" (story relating to three sisters killing their father who became Psycho in raping the children including themselves and this is also a real story). I normally portray in a books only facts not fiction, poetry and no fairy tails. My aim is let the decide what is fact and what fiction and develop his personality accordingly since what ever that feels, perceives, desires expressions and emotions are all the offshoots of the Brain. The meaning of life is to take birth, to grow, to feed, to develop energy, procreate children and

finally to die and merge into the womb of Earth as a piece of nuclei. That is it! Hence I did not show craze for the monetary returns but only to show the people how the realm of our Society is inflamed with monetary gains. This my story in short.

This book provides a fresh perspective on the importance of the Hindi media in India's political, social and economic transformation with evidence from the countryside and the cities. Accessed by more than forty percent of the public, it continues to play an important role in building political awareness and mobilising public opinion. Instead of viewing the media as a singular entity, this book highlights its diversity and complexity to understand the changing dynamics of political communication that is shaped by the interactions between the news media, political parties and the public, and how various media forms are being used in a rapidly transforming environment. The book offers insights into how print, television, and digital media work together with, rather than in isolation from, each another to grasp the complexities of the emerging hybrid media environment and the future of mobilisation.

In 2008, the then SEBI Chairman C B Bhave's detachment from his Dharma as 'the market watchdog' opened the door for data theft at the National Stock Exchange (NSE), India's largest asset pool. It also led to the installation of defective Co-location (COLO) trading infrastructure at NSE, by an unofficial decree, which gave a select few brokers preferential access to equity derivatives. Fast-moving trading bots, deep-rooted nexus between enterprising PhD scholars Ajay Shah and Susan Thomas, economists, top dollar earning executives, politicians, bureaucrats and salivating brokers were at play. In 2015, SEBI was

woken up by a whistleblower, who described the contours of a front-running market operation perpetrated for over five years involving the use of COLO and High-Frequency Trading. Surprisingly, SEBI never scrutinized NSE's COLO grid – an omission of duty – before the whistleblower highlighted the skulduggery. Harshad Mehta and Ketan Parekh are considered the 'formidable villains' for exploiting the systemic loopholes to manipulate share prices. Once the Demigods of Dalal Street, the rogue stock traders attracted such severe crack-down from government investigative agencies that could shock even the most hardened criminals. But a scandal of much larger magnitude involving data theft at NSE and the Multi Commodity Exchange, that Mehta and Parekh could ever rev-up, has largely remained a mystery. The author's path-breaking investigative journalism fleshes out the meticulous planning and organization behind the COLO scam, the dark drama involving SEBI probe and its loosely-knit final verdict.
