Smart Videoconferencing is the first book to show people how to participate effectively in videoconferences, rather than just how to set them up. The authors show that just like traditional meetings, mastering a few tricks and simple skills can mean the difference between a successful videoconference and an unsuccessful one.

Market Leader uses authoritative authentic content from the Financial Times to build the professional language and skills needed to communicate in the modern world of business. The third edition has been completely updated to reflect this fast-changing world.

As industries turn increasingly hostile, it is clear that strong brand-building skills are needed to survive and prosper. In David Aaker's pathbreaking book, MANAGING BRAND EQUITY, managers discovered the value of a brand as a strategic asset and a company's primary source of competitive advantage. Now, in this compelling new work, Aaker uses real brand-building cases from Saturn, General Electric, Kodak, Healthy Choice, McDonald's, and others to demonstrate how strong brands have been created and managed. A common pitfall of brand strategists is to focus on brand attributes. Aaker shows how to break out of the box by considering emotional and self-expressive benefits and by introducing the brand-as-person, brand-as-organisation, and brand-as-symbol perspectives. A second pitfall is to ignore the fact that individual brands are part of a larger system consisting of many intertwined and overlapping brands and subbrands. Aaker shows how to manage the "brand system" to achieve clarity and synergy, to adapt to a changing environment, and to leverage brand assets into new markets and products. As executives in a wide range of industries seek to prevent their products and services from becoming commodities, they are recommitting themselves to brands as a foundation of business strategy. This new work will be essential reading for the battle-ready.

With its combination of stimulating, informational content and systematic skills work, Language Leader is the ideal course to develop students' analytical and communicative skills.

A split edition of Oxford's best-selling secondary course developed for language schools teaching teen learners in the UK and Ireland. Solutions offers a tried and trusted methodology alongside fresh and diverse material that will spark your students' interest and drive them to succeed.

Based on their combined experience of over half a century of advising companies, the authors argue that marketing has lost its way. Companies cannot win in today's highly competitive markets by leaving marketing up to the marketing department. Success in the new marketplace demands integration of the firm's entire set of capabilities into a seamless system that delivers exemplary customer satisfaction, if not delight. Integrating marketing is imperative, from the top down, and with every major function: finance, operations, sales, R&D, customer service and HR. Only by creating "Total Integrated Marketing", ensuring that everyone in the organization has one paramount goal to get and keep customers can success be achieved. The authors provide a wealth of marketing tips and innovations that readers can easily adapt to their own businesses and revealing cases that lift the lid on good and bad practice around the world.
