gives an overview of the complexity of cosmetic chemistry particularly with respect to product penetration, and highlights the current challenges facing cosmetic formulators. In addition, it offers comprehensive discussion of the various skin types and conditions in order to help professionals in their product selection. Lastly, it defines common cosmetic industry terminology used by cosmetic manufacturers, professional estheticians, marketers and the media. The second part is dedicated to helping cosmetic users identify the function and purpose of specific ingredients. It is an alphabetical dictionary that lists and describes not only active principles but all other categories of ingredients that comprise a skin care cosmetic.
