"When I see an Alfa Romeo, I lift my hat." Henry Ford Few things ignite such reverence as a classic car. With more than 250 iconic models from the 1940s to the 1980s, photographed from every angle, this title is a glorious celebration of the stars in the classic car firmament. Edited by award-winning automotive journalist Giles Chapman, Classic Car brings you the story of more than 20 great marques, including household names Bentley, Mercedes, Ferrari, Cadillac, and Aston Martin. Its lavish photography reveals every detail in close-ups of models that range from the 1940s giant two-ton Daimler DE36, which ferried royals about in style, through to sleek Ferraris from the 1980s capable of smashing the 200mph barrier. It puts you in the driving seat of such icons as the Chevrolet Corvette, the Ford Thunderbird, and the Mercedes 300SL and brings you the designers of these amazing machines and the story of their manufacturers. Whether you dream of owning one of these super-cool cars or you are a collector already, Classic Car is set to become a treasured favorite.

What began as a solution for transportation has evolved into a desire for speed, luxury, personal expression, and freedom. For many, the thrill of the drive has eclipsed the pure utility of the automobile. And the pursuit of that thrill is the driving force behind 365 Cars You Must Drive. From the Ford Model T to the Porsche Carrera GT, there are certain cars that any self-respecting auto enthusiast just has to know—and experience from the driver's seat. With homage to the greatest cars and good-natured mockery of the strangest, authors Matt Stone and John Matras detail which cars to drive and why, how to get behind the wheel, where to drive them, and who to invite along for the ride. Each entry contains a colorful spec box noting the car's claim to fame, a Did You Know? factoid, the author's clever suggestions for "The Perfect Passenger" and the "Soundtrack" coming out of the speakers, Behind the Wheel notes, and a "Perfect Drive" for the marque or model covered. Engine details, production information, the price when it debuted and the collectible price now - all of it adds up to at-a-glance fun reading to go with informative essays on each car, archival and full-color photos, and more. See Motorbooks author Matt Stone interviewed by Jay Leno on JayLenosGarage.com: http://www.jaylenosgarage.com/video/jays-book-club-matt-stone/1164286/

Sports cars are about the joy of driving and 365 Sports Cars You Must Drive: Fast, Faster, Fastest is a celebration of that pleasure. All the greats are included, from Alfa Romeo to Ferrari to MG to Triumph to Zenvo and just about every make model in between!

Voted the second most influential car of the 20th century after the Model T Ford in 1999, the original Mini – as Sir Alec Issigonis' classic design of 1959 inevitably became known – was a car that helped to define an era. In an age when London was swinging, when Carnaby Street and the King's Road in Chelsea were perceived as the style capital of the world, the Mini was the last word in 'cool' motoring. Pictured with the stars of the age, including the designer Mary Quant, the car was to be successful in motor sport and, as one of the last great products of British designed engineering. In production for more than 50 years, by which stage almost 5.4 million of the model in its various guises had been made worldwide, the original Mini was to be supplanted in 2000 by a newer and larger model – the MINI – produced, (following the takeover of Rover Group) by the German company BMW. This is the story of the Mini and MINI in its various guises throughout its fascinating history.
