Manual Download | MITSUBISHI ELECTRIC FA

Mitsubishi Electric has utilised their expertise and industry-leading technology to develop Ecodan – a super energy efficient heat pump solution that combines both hot water heating and room heating through one system. On average, hot water and home heating needs combined account for over 67%*1 of the overall energy bill in New Zealand homes.

Ecodan - Mitsubishi Electric

Mitsubishi Electric can offer solutions that deliver the quality and excellence you would expect from a world-leading supplier. We also offer services and support at every step of the way whether it be pre-sales design and specification, installation and maintenance support, right through to recycling.

Support for Ecodan Owners | Mitsubishi Electric

Using Ecodan, it is possible to control two different flow temperatures, thereby managing two different heating load requirements. The system can adjust and maintain two flow temperatures when different temperatures are required for different rooms; for example, controlling a flow temperature of 40°C for the bedroom radiators and another flow temperature of 30°C for the living room underfloor heating.

5kW Hot Water Heat Pump with Split ... - Mitsubishi Electric

Mitsubishi Electric is a world-leading supplier of energy efficient equipment that will cool, heat, ventilate and control buildings. We supply not only the equipment but continued support throughout the lifecycle of all products whether that is in commercial and industrial properties or homes.
