"The automotive maven and former Member of Parliament might be the most trusted man in Canada, an inverse relationship to the people he writes about." – The Globe and Mail Lemon-Aid shows car and truck buyers how to pick the cheapest and most reliable vehicles from the past 30 years of auto production. This brand-new edition of the bestselling guide contains updated information on secret service bulletins that can save you money. Phil describes sales and service scams, lists which vehicles are factory goofs, and sets out the prices you should pay. As Canada 's automotive "Dr. Phil" for over 40 years, Edmonston pulls no punches. His Lemon-Aid is more potent and provocative than ever.

Don't Just Be Good - You Can Be Great! Optimum Drive is the complete step-by-step guide to maximizing human performance in any endeavor you choose to conquer Attaining peak performance. Optimum Drive is a motivational book that uses top level race car driving as a metaphor for peak performance. As a professional racing driver and a driving coach for over 20 years, author Paul F. Gerrard gives you his unique perspective on what causes people to stagnate with the idea of being merely good, when each of us has the potential to be great. Gerrard believes that peak performance is within our grasp. He lays out his step-by-step process for attaining peak performance with detailed nuance threaded throughout. If you have ever been curious about maximizing your own ultimate potential, Optimum Drive is for you! Mental toughness. Greatness is as hard to quantify as it is to achieve...probably not a coincidence. In this book, Optimum Drive, professional driver Gerrard helps you understand the mental toughness that it takes to reach that greatness. He starts off by taking you onto the track as he explores what driving at 200 mph can teach us about who we are. Using his experiences from behind the wheel at death-defying speeds, Gerrard breaks down the psychology of driving, what it takes, and how we can use it to achieve greatness in life. Flow psychology and staying in the zone. The key to the mental toughness that Gerrard believes it takes to achieve peak performance is the nirvana-like sensation of flow psychology or being in the zone. Flow psychology, or being in the zone, is a mental state in which one who is performing an activity is fully immersed in a feeling of energized focus, full involvement, and joy. It is through flow psychology that Gerrard introduces a blend of holistic mindset combined with a competitive edge, which is essential to successful professional driving. This mix

of guts, tenacity and endurance is the foundation of Gerrard ' s philosophy for attaining greatness. Why you should read Optimum Drive This book is not just about learning how to drive race cars. Use it for anything. Auto Racing (by far the richest sport in the world) has invested more money evaluating human performance than any other sport. Optimum Drive is a step-by-step guide to unlock your hidden potential. Former Top Gear US Stig, Paul F. Gerrard has taught and refined his principles for over 20 years with thousands of successful students.

This book describes the birth, development, and rallying career of the BMC Mini-Cooper/Mini-Cooper in the 1960s, providing a compact and authoritative history of where, when and how it became so important to the sport.

This e-book details the most interesting and important characteristics of the automobiles, car maintenance, styling features, car body style, the standard classification of the cars, an history of the automobiles, introduction in the automotive industry, and the traffic code, rules and signs. An automobile, usually called a car (an old word for carriage) or a truck, is a wheeled vehicle that carries its own engine. Older terms include horseless carriage and motor car, with “ motor ” referring to what is now usually called the engine. It has seats for the driver and, almost without exception, for at least one passenger. The automobile was hailed as an environmental improvement over horses when it was first introduced. Before its introduction, in New York City, over 10,000 tons of manure had to be removed from the streets daily. However, in 2006 the automobile is one of the primary sources of worldwide air pollution and cause of substantial noise and health effects.

This book explains how the HF 4WD evolved over the years – first into the Integrale with its original 8-valve engine, then the Integrale 16V, and ultimately into the Integrale 16V Evo 1 (or 'Deltona', as it was affectionately known). This compact, five-door Lancia dominated world-class rallying for six years, winning innumerable events, World Championships for Drivers, and World Championships for Manufacturers. Alongside the cars, driving heroes such as Markku Alan, Didier Auriol, Miki Biasion,
