Definition of the Momentum. The Momentum is a relative price change. The sign of the Momentum shows the direction of the price change: a positive Momentum - the price increased over the period, a negative - the price has declined over the period. The magnitude of the Momentum - is the relative speed of the price change (first derivative of the price).

The Nifty Services sector index is the only one as of now in the leading quadrant. It is also rotating favorably in the north-easterly direction. The IT sector is in the leading quadrant as well, but it has pared relative momentum over the past week. However, these two groups are likely to post relative outperformance over the broader market.
