Motor Vehicle Technology

The Department of Motor Vehicles, a national leader in the use of facial recognition technology, recently implemented an improved system that doubles the number of measurement points mapped to each digitized driver photograph to vastly improve the system's ability to match a photograph to one already in the database.

Governor Cuomo Announces Major Enhancement to Department ...

Electric vehicles first appeared in the mid-19th century. An electric vehicle held the vehicular land speed record until around 1900. The high cost, low top speed, and short-range of battery electric vehicles, compared to 20th century internal combustion engine vehicles, led to a worldwide decline in their use as private motor vehicles; although electric vehicles have continued to be used in ...

History of the electric vehicle - Wikipedia
