GP338 Plus Motorola GP338 Plus display radio - the smallest in Motorola's Professional Series. It is compact, light and fit easily into the palm of your hand. A versatile alternative for those who require additional features to meet expanding communication needs.

This book is an easy-to-understand introduction to VHF/UHF ham radio, including practical tips for getting on the air and having fun messing around with radios. Learn about FM, SSB, repeaters, equipment, band plans, phonetics, portable operating, Summits On The Air (SOTA) activations and more. This book is a compilation of the best articles from the k0nr.com website plus some brand-new material. The first section explains VHF/UHF concepts via tutorial articles such as "VHF FM Operating Guide," "Getting Started on 2m SSB" and "How to Work a VHF Contest." The second section includes blog posts from the k0nr.com website, such as "Choose Your 2m Frequency Wisely," "VHF Grid Locators," "Phonetic Alphabets" and "VHF FM: The Utility Mode." The final section helps the reader understand mountaintop operating, especially Summits On The Air (SOTA) activations, including operating tips and trip reports.

"[An] exciting and darkly funny crime novel." —C. Moon Read, Las Vegas Weekly, 1 of Our 20 Favorite Books of the Past Twenty Years Sal Cupertine is a legendary hit man for the Chicago Mafia, known for his ability to get in and out of a crime without a trace. Until now, that is. His first – ever mistake forces Sal to botch an assassination, killing three undercover FBI agents in the process. This puts too much heat on Sal, and he knows this botched job will be his death sentence to the Mafia. So he agrees to their radical idea to save his own skin. A few surgeries and some intensive training later, and Sal Cupertine is gone, disappeared into the identity of Rabbi David Cohen. Leading his growing congregation in Las Vegas, overseeing the population and the temple and the new cemetery, Rabbi Cohen feels his wicked past slipping away from him, surprising even himself as he spouts quotes from the Torah or the Old Testament. Yet, as it turns out, the Mafia isn't quite done with him yet. Soon the new cemetery is being used as both a money and body – laundering scheme for the Chicago family. And that rogue FBI agent on his trail, seeking vengeance for the murder of his three fellow agents, isn't going to let Sal fade so easily into the desert. Gangsterland is the wickedly dark and funny new novel by a writer at the height of his power—a morality tale set in a desert

landscape as ruthless and barren as those who inhabit it.

Here's a new approach to passing the Technician Class test. The test is multiple choice and the other study guides take you through the 426 possible questions including all four answers for each question. But three out of the four answers are **WRONG!** You are reading 1,278 wrong answers and that is both confusing and frustrating. The Easy Way focuses only on the right answers. All Ham and no Spam. The first part is a narrative of the author's ham radio experience. Every question and answer is woven into the story and identified in bold print. The second part is a 40-page Quick Summary. It gives every question and answer, with hints and cheats to help you remember. Other study guides take over 200 pages. Which would you rather study: 40 pages of right answers or over 200 pages with three quarters of the answers wrong?

Instructors: This book is perfect for review or weekend courses. Have the students read the narrative before class, then go over the concepts with them rather than slogging through all those wrong answers. You'll be done in no time and the students will be fully prepared to take their tests.

This book is great for developers, quality assurance engineers, testers, and test managers new to Apache JMeter, or those who are looking to get a good grounding in how to effectively use and become proficient with JMeter. No prior testing experience is required.

No one but Graeme Obree has the clarity of vision to get to the heart of the 'problem' of how to improve as a racing cyclist. His innovative approach took him to the top of world cycling, twice breaking the world hour record. This practical guide to revolutionising your cycling training – applicable to all cyclists, from the weekend warrior to the serious competitor – swerves conventional wisdom and strips cycling back to its elements, always asking the question: 'What actually improves my race time?' Fully updated, this cycling classic explains Graeme Obree's radical insights into technique, training, psychology and diet, and the clear logic behind them. It is certain to help cyclists get the most out of their training.

Get to grips with a new technology, understand what it is and what it can do for you, and then get to work with the most important features and tasks. This book is a great tool to quickly learn and explore the features offered by XenApp 6.5. Windows system administrators who want a quick lesson on how to install and configure XenApp.

The book is styled on a Cookbook, containing recipes - combined with free datasets - which will turn readers into proficient OpenRefine users in the fastest possible way. This book is targeted at anyone who works on or handles a large amount of data. No prior knowledge of OpenRefine is required, as we start from the very beginning and gradually reveal more advanced features. You don't even need your own dataset, as we provide example data to try out the book's recipes.

This book is intended for Prizes won etc.

This text re-examines the great variety of liturgical practices in the first four centuries in the light of modern Jewish and Christian scholarship.
