More short films, kiddies! Today we have NIGHT FILM, directed by Alexandra Samton. I have very little cast or crew information for it. Trust me...that isn't the strangest part of this film. Opening cold with no opening or closing credits, the film introduces us to a notorious underground film director called Stanislas Cordova.

On a damp October night, the body of young, beautiful Ashley Cordova is found in an abandoned warehouse in lower Manhattan. By all appearances her death is a suicide—but investigative journalist Scott McGrath suspects otherwise. Though much has been written about the dark and unsettling films of Ashley's father, Stanislas Cordova, very little is known about the man himself. As McGrath pieces together the mystery of Ashley's death, he is drawn deeper and deeper into the dark underbelly of New York City and the twisted world of Stanislas Cordova, and he begins to wonder—is he the next victim? In this novel, the dazzlingly inventive writer Marisha Pessl offers a breathtaking mystery that will hold you in suspense until the last page is turned.

NEW YORK TIMES BESTSELLER NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR • *Cosmopolitan* • *Kirkus Reviews* • *BookPage* A page-turning thriller for readers of Stephen King, Gillian Flynn, and Stieg Larsson, *Night Film* tells the haunting story of a journalist who becomes obsessed with the mysterious death of a troubled prodigy—the daughter of an iconic, reclusive filmmaker. On a damp October night, beautiful young Ashley Cordova is found dead in an abandoned warehouse in lower Manhattan. Though her death is ruled a suicide, veteran investigative journalist Scott McGrath suspects otherwise. As he probes the strange circumstances surrounding Ashley's life and death, McGrath comes face-to-face with the legacy of her father: the legendary, reclusive cult-horror-film director Stanislas Cordova—a man who hasn't been seen in public for more than thirty years. For McGrath, another death connected to this seemingly cursed family dynasty seems more than just a coincidence. Though much has been written about Cordova's dark and unsettling films, very little is known about the man himself. Driven by revenge, curiosity, and a need for the truth, McGrath, with the aid of two strangers, is drawn deeper and deeper into Cordova's eerie, hypnotic world. The last time he got close to exposing the director, McGrath lost his marriage and his career. This time he might lose even more. *Night Film*, the gorgeously written, spellbinding new novel by the dazzlingly inventive Marisha Pessl, will hold you in suspense until you turn the final page. Praise for *Night Film* “ *Night Film* has been precision-engineered to be read at high velocity, and its energy would be the envy of any summer blockbuster. The mesmerizing New York Times bestseller by the author of Night Film Marisha Pessl ’ s dazzling debut sparked raves from critics and heralded the arrival of a vibrant new voice in American fiction. At the center of Special Topics in Calamity Physics is clever, deadpan Blue van Meer, who has a head full of literary, philosophical, scientific, and cinematic knowledge. But she could use some friends. Upon entering the elite St. Gallway School, she finds some—a clique of eccentrics known as the Bluebloods. One drowning and one hanging later, Blue finds herself puzzling out a byzantine murder mystery. Nabokov meets Donna Tartt (then invites the rest of the Western Canon to the party) in this novel—with visual aids drawn by the author—that has won over readers of all ages.

Discusses film noir, treating noir as a term in criticism, as an expression of artistic modernism, and as an idea that circulates through all the media.

Film noir is more than a cinematic genre. It is an essential aspect of American culture. Along with the cowboy of the Wild West, the denizen of the film noir city is at the very center of our mythological iconography. Described as the style of an anxious victor, film noir began during the post-war period, a strange time of hope and optimism mixed with fear and even paranoia. The shadow of this rich and powerful cinematic style can now be seen in virtually every artistic medium. The spectacular success of recent neo-film noirs is only the tip of an iceberg. In the dead-on, nocturnal jazz of Charlie Parker and Miles Davis, the chilled urban landscapes of Edward Hopper, and postwar literary fiction from Nelson Algren and William S. Burroughs to pulp masters like Horace McCoy, we find an unsettling recognition of the dark hollowness beneath the surface of the American Dream. Acclaimed novelist and poet Nicholas Christopher explores the cultural identity of film noir in a seamless, elegant, and enchanting work of literary prose. Examining virtually the entire catalogue of film noir, Christopher identifies the central motif as the urban labyrinth, a place infested with psychosis, anxiety, and existential dread in which the noir hero embarks on a dangerously illuminating quest. With acute sensitivity, he shows how technical devices such as lighting, voice over, and editing tempo are deployed to create the film noir world. Somewhere in the Night guides us through the architecture of this imaginary world, be it shot in New York or Los Angeles, relating its elements to the ancient cultural archetypes that prefigure it. Finally, Christopher builds an explanation of why film noir not only lives on but is currently enjoying a renaissance. Somewhere in the Night can be appreciated as a lucid introduction to a fundamental style of American culture, and also as a guide to film noir's heyday. Ultimately, though, as the work of a bold talent adeptly manipulating poetic cadence and metaphor, it is itself a superb aesthetic artifact.

A family relocates to a small house on Ash Tree Lane and discovers that the inside of their new home seems to be without boundaries

In the beginning was the night. All light, shapes, language, and subjective consciousness, as well as the world and art depicting them, emerged from this formless chaos. In fantasy, we seek to return to this original darkness. Particularly in literature, visual representations, and film, the night resiliently resurfaces from the margins of the knowable, acting as a stage and state of mind in which exceptional perceptions, discoveries, and decisions play out. Elisabeth Bronfen investigates the nocturnal spaces in which extraordinary events unfold, and casts a critical eye into the darkness that enables the irrational exploration of desire, transformation, ecstasy, transgression, spiritual illumination, and moral choice. She begins with an analysis of classical myths depicting the creation of the world and then moves through night scenes in Shakespeare and Milton, Gothic novels and novellas, Hegel's romantic philosophy, and Freud's psychoanalysis. Bronfen also demonstrates how modern works of literature and film, particularly film noir, can convey that piece of night the modern subject carries within. From Mozart's "Queen of the Night" to Virginia Woolf 's oscillation between day and night, life and death, and chaos and aesthetic form, Bronfen renders something visible, conceivable, and comprehensible from the dark realms of the unknown.

Jessie lives with her family in the frontier village of Clifton, Indiana, in 1840...or so she believes. When diphtheria strikes the village and the children of Clifton start dying, Jessie's mother reveals a shocking secret -- it's actually 1996, and they are living in a reconstructed village that serves as a tourist site. In the world outside, medicine exists that can cure the dread disease, and Jessie's mother is sending her on a dangerous mission to bring back help. But beyond the walls of Clifton, Jessie discovers a world even more alien and threatening than she could have imagined, and soon she finds her own life in jeopardy. Can she get help before the children of Clifton, and Jessie herself, run out of time?

George A. Romero's Night of the Living Dead is a cult classic that has resonated with audiences and independent filmmakers ever since its release in 1968. It redefined horror cinema and launched the modern zombie genre that continues with films and series like 28 Days Later, Shaun of the Dead and The Walking Dead. Ben Hervey's illuminating study of the movie traces Night's influences, from Powell and Pressburger to fifties horror comics, and provides the first history of its reception. Hervey argues that the film broke cultural barriers, fêted at New York's Museum of Modern Art while it was still packing 42nd Street grindhouses. Scene-by-scene analysis meshes with detailed historical contexts, showing why Night was a new kind of horror film: the expression of a generation who didn't want their world to return to normal.
