The Oracle Certified Specialist (OCS) credentials are typically implementation-oriented certifications targeting employees of current Oracle partners, though the certifications are available to all candidates, partner or not. These certifications are built on very focused products or skillsets and provide a solid measure of a candidate's level of expertise in a particular area.

[Oracle PL/SQL Developer Certified Professional | Oracle ...](#)

These developer challenges can generally be summed up as follows: there's too much code inside the Oracle Application Express application and not enough code in PL/SQL packages and views. When a framework can do a lot of work for you (that is, generate code instead of requiring you to write all of it), it is very tempting to want to spend too much time in that framework.
