Principles developed in economic theory are applied to specific areas in finance. From macroeconomics comes the institutional structure in which money and credit flows take place. From microeconomics, finance draws the primary principle used in financial management, marginal analysis.

Summary Principles of Managerial Finance - Chapters 1-10 ...

Managerial finance is the branch of finance that concerns itself with the managerial application of finance techniques. Sound financial management creates value and organizational agility through the allocation of scarce resources amongst competing business opportunities. It is thus an aid to the implementation and monitoring of business strategies and helps achieve business objectives. Managerial finance is interdisciplinary, borrowing from both managerial accounting and corporate finance. See
