Bringing together contributions by leaders in the field of clinical psychology, this highly readable textbook provides a current perspective on theory, training, assessment, consultation, research, and outpatient and inpatient practice. Bridging the gap between theory and practice, contributors offer a professional perspective on the various specialized activities and settings of a clinical psychologist. With this unique insight, advanced undergraduate and beginning graduate students gain a realistic understanding of the life of a clinical psychologist as well as the diverse professional opportunities in the field.

WRITING FOR PSYCHOLOGY, Fourth Edition offers concise assistance for students writing their research analyses using APA style. By providing concrete examples of common errors, the authors show rather than merely tell students what to do and what to avoid. This manual will help students adhere to the basics of APA style; refine critical thinking skills, library search skills, revising skills, editing skills, and proofing skills; and avoid plagiarism. Checklists precede a summary at the end of every chapter, giving students the chance to make sure they have been thorough in their reports.
