Reasons and Persons Derek Parfit Abstract. This book has four loosely connected parts. Part One discusses some ways in which theories about morality and rationality can be self-defeating. Such theories give us certain aims, but also tell us to act in ways that frustrate these aims. If these theories are revised, these objections can be partly met. Keywords: consequentialism, ethics, future ...

My two subjects, reasons and persons, have close connections. I believe that most of us have false beliefs about our own nature, and our identity over time, and that, when we see the truth, we ought to change some of our beliefs about what we have reason to do. We ought to revise our moral theories, and our beliefs about rationality.

The main challenge which Parfit presented in his celebrated work Reasons and Persons is to develop a theory of beneficence—theory X he calls it—which is able to solve the Non-Identity problem, which does not lead to the Repugnant Conclusion and which thus manages to block the Mere Addition Paradox, without facing other unacceptable conclusions.

*The Repugnant Conclusion (Stanford Encyclopedia of Philosophy)*

In 1951, a mere 26 countries convened in Geneva to define a refugee as a person who has a “well-founded fear of being persecuted for reasons of race, religion, nationality, membership of a particular social group or political opinion” and who, on account of that fear “is unwilling to return to [their country of origin].”
