The 79mm crank 2.1L is a "stroker" meaning it has more stroke than your stock engine. Basically what is being said is that since you have spun a bearing, it is likely the crank is damaged and will need to be replaced for the rebuild to have longevity, along with at least one rod being replaced or resized.

Engine Rebuild | IW STi Forum

Depends if you mean rebuild to stock specifications or rebuild with forged parts. As Badler said you could spend anywhere from 2 to 5 thousand on getting your engine up to par. Before I'd build anything it would be smart to figure out how much power you realistically want to make and build the engine to withstand said power.

2.5 Turbo Sti Rebuild cost? - NASIOC

The Subaru EJ engine is a series of four-stroke automotive engines manufactured by Subaru. They were introduced in 1989, intended to succeed the previous Subaru EA engine. The EJ series is the mainstay of Subaru's engine line, with all engines of this series being 16-valve horizontal flat-fours, with configurations available for single, or double-overhead camshaft arrangements (SOHC or DOHC).
