Educational resource for teachers, parents and kids!

This new edition continues the story of psychology with added research and enhanced content from the most dynamic areas of the field--cognition, gender and diversity studies, neuroscience and more, while at the same time using the most effective teaching approaches and learning tools.

Longtime Myers collaborator Richard Straub provides an updated study guide for the new edition.

This study guide for David Myers' best-selling text for introductory psychology courses is compelling and concise with a global perspective on psychology. This edition has been thoroughly updated, and includes new features and a media supplements package.

Designed to accompany The Anatomy and Physiology Learning System, 4th Edition, by Edith Applegate, this study guide helps you learn and review basic A&P concepts. Each chapter emphasizes medical terminology with a set of key terms, word parts, clinical terms, and abbreviations, and then adds a variety of fun-filled learning exercises, review questions, a quiz, and a word puzzle. The study guide corresponds to the textbook chapter for chapter. Chapter learning objectives help you focus on the most important material. Key concepts are defined on the first page of each chapter in the workbook. Learning exercises for each chapter include short answer, matching, and diagrams to label and color. Self-quizzes allow you to measure your progress and understanding. Fun and Games features end each chapter with a variety of engaging puzzles covering words and concepts. A chapter summary provides a brief review of each chapter. A chapter review provides questions for reinforcement and review of the concepts in each chapter.

Following the text's content, Richard Straub offers a Chapter Overview and Chapter Review, which is divided by major section. Each group of fill-in-the-blank and short-answer questions is preceded by the relevant objective from the text. The Study Guide also includes three self-tests (one of which encourages students to think critically about the chapter's concepts), answers (with page references for the self-tests and explanations of why a choice is correct or incorrect), and a Focus on Language and Vocabulary section, which explains idioms and other phrases used by David Myers in the text that may not be clear to some readers.

For every major content section, longtime author Richard Straub has divided each module by major topic; each section includes a Preview (objectives that require short answers) and "Stepping Through the Section" (which include detailed, fill-in-the-blank questions). The Study Guide also includes self-tests, critical-thinking exercises, vocabulary and language activities, Internet activities, and crossword puzzles.

Tackles The Westing Game and four thematically related short stories: "The Cask of Amontillado," "The Monkey's Paw," "The Phantom Coach," and a ghost story by Charles Dickens, "The Signal-Man." This curriculum unit provides everything needed for in-depth study of classic fiction (except the readily available novels and short stories themselves): teaching directions, suggested schedules, background information, author bios, plot summaries, vocabulary study guides, discussion of literary elements, reproducible activities and assessments, and ideas for extensions. The time required for full treatment is four weeks for each novel, one week for each short story. Grades 6-8. Glossaries. Answer keys.
