Statement in Engineering
School~~
Electronic Engineering

Personal Statement. From a very young age, physics has always been a subject close to my heart. Back when I was in primary school it was space that captured my imagination, but as I've grown up the world of electronics has become the forerunner for my attention. It is largely through electronics that the world has developed into something that would have been unrecognisable less than 100 years ago.

...

After I earn my master's degree, I intend to start work on my Ph.D. in electrical engineering. Later I would like to work in the area of research and development for private industry. It is in R & D that I believe I can make the greatest contribution, utilizing my theoretical background and creativity as a scientist.
