Good for all levels of investment traders. This manual reviews the basics of option trading, covers a few important chart reading indicators, and delves into in-depth P3 Strategy details.

DEADLY QUEST When a top lieutenant in a notorious ring of human traffickers agrees to turn state’s evidence, Immigration and Customs Enforcement senior agent Sonia Knight believes she’ll finally take down the illegal operation’s devilish mastermind, Xavier Jones. But when an FBI sting on Jones’s criminal enterprise collides with an ICE stakeout, Sonia is enraged: Her informant’s life and her evidence are in grave jeopardy. FBI agent Dean Hooper has been chasing Jones for years on money-laundering and tax-evasion charges and doesn’t need or want a hot-headed ICE agent second-guessing his every move. When the Bureau is ordered to join forces with ICE, Sonia is just as livid: Her job is to save lives, not money. But their team effort pays off as fierce mutual resentment fades and passion flares—along with risk. For Jones is just one piece of a depraved puzzle, answering to an even more dangerous predator. Denied his expected prey, this pitiless fiend intends to make Sonia and Dean pay with their own blood.

This book presents the papers from the latest conference in this successful series on fuel injection systems for internal combustion engines. It is vital for the automotive industry to continue to meet the demands of the modern environmental agenda. In order to excel, manufacturers must research and develop fuel systems that guarantee the best engine performance, ensuring minimal emissions and maximum profit. The papers from this unique conference focus on the latest technology for state-of-the-art system design, characterisation, measurement, and modelling, addressing all technological aspects of diesel and gasoline fuel injection systems. Topics range from fundamental fuel spray theory, component design, to effects on engine performance, fuel economy and emissions. Presents the papers from the IMechE conference on fuel injection systems for internal combustion engines Papers focus on the latest technology for state-of-the-art system design, characterisation, measurement and modelling; addressing all technological aspects of diesel and gasoline fuel injection systems Topics range from fundamental fuel spray theory and component design to effects on engine performance, fuel economy and emissions

Searching for information on her father, Nadia receives a cryptic clue from a stranger that will propel her on a treasure hunt from New York to the Ukraine.

A guide to the business presentation software explains how to combine text, animation, video, photographs, sound effects, and narration into a professional-looking presentation.

Learn how to rebuild and modify the GM 4L80E transmission! As the successor to the venerable and popular Turbo Hydra-matic 400 (TH400), the 4L80E was the next flag bearer in GM’s line of automatic transmissions. While serving as the smaller, lighter cousin to the 4L85E, the abundance of 4L80E transmissions manufactured between 1991 and 2013 ensures that these highly capable 4-speed overdrive units will be in service for years to come. Automatic transmissions are often seen as mysterious and overly complicated, but much of the guesswork has been simplified to its basic elements in this easy-to-follow guide. This book covers the process of identifying the best versions, tearing down the 4L80E, rebuilding, reassembly, and troubleshooting. Upgrades that are available for the 4L80E, which is a popular topic among performance fans and transmission swappers, are also included. This detailed, step-by-step instructional manual is authored by racer and builder Eric McClellan. Meticulous step-by-step photos of the rebuild process are featured along with torque specs and unique identification of all major and most minor components.

Vehicle maintenance.

Welcome to Unicorn Academy, where every girl gets a unicorn to call her own! Fans of Rainbow Magic, Purrrmaids, and Princess Ponies will flock to this new chapter book series about the magic of bonding with unicorns. Imagine a school where you meet your own unicorn and have amazing adventures together! That's what happens for the girls at Unicorn Academy on beautiful Unicorn Island. Ava and Star love their beautiful garden at Unicorn Academy. It's where they grow their very own magical plants! When the sky berries that the unicorns need to survive disappear, Ava and Star will need all their skills and courage to help their friends. Can they find more of the special berries before every unicorn's magic starts to fade? The Unicorn Academy series is going at full throttle! Which adventure will you read next?

Blue Team Field Manual (BTfM) is a Cyber Security Incident Response Guide that aligns with the NIST Cybersecurity Framework consisting of the five core functions of Identify, Protect, Detect, Respond, and Recover by providing the tactical steps to follow and commands to use when preparing for, working through and recovering from a Cyber Security Incident.
