Basic Sociological Research Concepts An investigator begins a research study after evolving ideas from a specific theory, which is an integrated set of statements for explaining various phenomena. Because a theory is too general to test, the investigator devises a hypothesis, or testable prediction, from the theory, and tests this instead.

Sociologists define society as the people who interact in such a way as to share a common culture. The cultural bond may be ethnic or racial, based on gender, or due to shared beliefs, values, and activities. The term society can also have a geographic meaning and refer to people who share a common culture in a particular location.
