testing statistical hypotheses solutions

P3.9 from Lehmann, Romano, Testing Statistical Hypotheses. Let X distributed according to P ; 2 and let T sufficient for θ . If $\phi(X)$ is any test of a hypothesis concerning θ , then (T) given by $(t) = E[\phi(X) | T = t]$ is a test depending on T only and its power is identical with that of $\phi(X)$. Solution:

Stat 300A Theory of Statistics Homework 7: Solutions

The sections on multiple testing and goodness of fit testing are expanded. The text is suitable for Ph.D. students in statistics and includes over 300 new problems out of a total of more than 760. E.L. Lehmann is Professor of Statistics Emeritus at the University of California, Berkeley.
