Ghost Wars: The Secret History of the CIA, Afghanistan ...

Vietnamisation: "Ghost Wars - The Secret History of the CIA, Afghanistan, and Bin Laden, from the Soviet Invasion to September 10, 2001" by Steve Coll Essential, bloody, real and tragic. One important underlying issue is what this means for the future, because there are similarities between the inflation of the Afghan government with western cash and the situation in South Vietnam during the 1960s and early 1970s.

Ghost Wars - Wikipedia

Based on extensive firsthand accounts, Ghost Wars is the inside story that goes well beyond anything previously published on U.S. involvement in Afghanistan. It chronicles the roles of midlevel CIA officers, their Afghan allies, and top spy masters such as Bill Casey, Saudi Arabia's Prince Turki al Faisal, and George Tenet.

A remote Alaskan town that has been overrun by paranormal forces and local outcast Roman Mercer (Jogia) must overcome the town's prejudices and his own personal demons if he's to harness his repressed psychic powers and save everyone from the mass haunting that's threatening to destroy them all.

Ghost Wars (TV Series 2017–2018) - IMDb

Winner of the 2005 Pulitzer Prize "The CIA itself would be hard put to beat his grasp of global events . . . Deeply satisfying." --The New York Review of Books From the award-winning and bestselling author of Directorate S, the explosive first-hand account of America's secret history in Afghanistan. To what extent did America's best intelligence analysts grasp the rising thread of Islamist radicalism? Who tried to stop bin Laden and why did they fail? Comprehensively and for the first time, Pulitzer Prize-winning journalist Steve Coll recounts the history of the covert wars in Afghanistan that fueled Islamic militancy and sowed the seeds of the September 11 attacks. Based on scrupulous research and firsthand accounts by key government, intelligence, and military personnel both foreign and American, Ghost Wars details the secret history of the CIA's role in Afghanistan (including its covert operations against Soviet troops from 1979 to 1989), the rise of the Taliban, the emergence of bin Laden, and the failed efforts by U.S. forces to find and assassinate bin Laden in Afghanistan.

Winner of the 2018 National Book Critics Circle Award for Nonfiction Longlisted for the 2018 National Book Award for Nonfiction From the Pulitzer Prize-winning author of Ghost Wars, the epic and enthralling story of America's intelligence, military, and diplomatic efforts to defeat Al Qaeda and the Taliban in Afghanistan and Pakistan since 9/11 Prior to 9/11, the United States had been carrying out small-scale covert operations in Afghanistan, ostensibly in cooperation, although often in direct opposition, with I.S.I., the Pakistani intelligence agency. While the US was trying to quell extremists, a highly secretive and compartmentalized wing of I.S.I., known as "Directorate S," was covertly training, arming, and seeking to legitimize the Taliban, in order to enlarge Pakistan's sphere of influence. After 9/11, when fifty-nine countries, led by the U. S., deployed troops or provided aid to Afghanistan in an effort to flush out the Taliban and Al Qaeda, the U.S. was set on an invisible slow-motion collision course with Pakistan. Today we know that the war in Afghanistan would falter badly because of military hubris at the highest levels of the Pentagon, the drain on resources and provocation in the Muslim world caused by the U.S.-led invasion of Iraq and corruption. But more than anything, as Coll makes painfully clear, the war in Afghanistan was doomed because of the failure of the United States to apprehend the motivations and intentions of I.S.I.'s "Directorate S". This was a swirling and shadowy struggle of historic proportions, which endured over a decade and across both the Bush and Obama administrations, involving multiple secret intelligence agencies, a litany of incongruous strategies and tactics, and dozens of players, including some of the most prominent military and political figures. A sprawling American tragedy, the war was an open clash of arms but also a covert mele of ideas, secrets, and subterranean violence. Coll excavates this grand battle, which took place away from the gaze of the American public. With unsurpassed expertise, original research, and attention to detail, he brings to life a narrative at once vast and intricate, local and global, propulsive and painstaking. This is the definitive explanation of how America came to be so badly ensnared in an elaborate, factional, and seemingly interminable conflict in South Asia. Nothing less than a forensic examination of the personal and political forces that shape world history, Directorate S is a complete masterpiece of both investigative and narrative journalism.

The Ghost Wars is a literary science fiction work focused on identity, diversity and the spiritual underpinnings of the nature of good and evil. Set in Vancouver, Canada; our protagonist RCN Captain Billington sees the world from a higher vantage point of a world in which money is no longer man's ruler, where the health of the planet and the body politic trump all. Alternating between three interconnecting lives, Jason Bowen, Cole Billington and Cecil Smith each have their own individual experiences of being the outlier in their world. Jason's autistic neurology has found creative expression through the development of an intricate layered inner world. Cole's bicultural heritage as a despised alien species with a lifespan of five centuries gives him an inherent sense of how autistics view the world. Cole's war torn childhood on Garconer Colony has left him with his own dislocated inner aspects. Sucked up by a spatial-temporal gravity well; Cole was torn out of his own time and has been working with the Commonwealth Protection Bureau since its inception in nineteen ten. Born in nineteen hundred; Cecelia Smith began working at the CPB in nineteen twenty eight, going by the name Cecil. Cecil's life as a transgender man parallels Jason's own gender queer one. The Ghost Wars aims to bring readers a new understanding of the issues surrounding gender variation, atypical neurology and spirituality with a futuristic twist. By utilizing a narrative dialogue reminiscent of Plato's 'Republic', characters discuss issues of gender identity, autistic neurology and the legitimacy of emerging Gnostic cults. Edition 2 has an added time line of the Ghost Wars. 10% of the list price goes to THARCE GULU, Eliza Dushku's charity working with former child soldiers.

The rise and rise of the Bin Laden family is one of the great stories of the twentieth century, its repercussions have already deeply marked the twenty-first. Until now, however, it is a story that has never been fully told, as the Bin Ladens have successfully fended off attempts to understand the family circles from which Osama sprang. In this the family has been abetted by the kingdom it calls home, Saudi Arabia, one of the most closed societies on earth. Steve Coll's The Bin Ladens: An Arabian Family in the American Century is the groundbreaking history of a family and its fortune. It chronicles a young illiterate Yemeni bricklayer, Mohamed Bin Laden, who went to the new, oil-rich country of Saudi Arabia and quickly became a vital figure in its development, building great mosques and highways and making himself and many of his children millionaires. It is also a story of the Saudi royal family, whom the Bin Ladens served loyally and without whose capricious favor they would have been nothing. And it is a story of tensions and contradictions in a country founded on extreme religious purity, which then became awash in oil money and dazzled by the temptations of the West. In only two generations the Bin Ladens moved from a famine-stricken desert canyon to luxury jets, yachts, and private compounds around the world, even going into business with Hollywood celebrities. These religious and cultural gyrations resulted in everything from enthusiasm for America—exemplified by Osama's free-living pilot brother Salem—to an overwhelming determination to destroy it. The Bin Ladens is a meticulously researched, colorful, shocking, entertaining, and disturbing narrative of global integration and its limitations. It encapsulates the unsettling contradictions of globalization in the story of a single family who has used money, mobility, and technology to dramatically varied ends.

More information to be announced soon on this forthcoming title from Penguin USA

History comes alive -- with ghosts! In the basement of his family's junkshop, Anderson and his friends Greg and Julie discover a trunk full of old military stuff. Including a battered navy peacoat from World War II, and when Anderson puts it on he finds a mysterious letter in the pocket. Curious, he takes the coat and letter home. But that's not all he brings home . . . Later that evening the ghost of a World War II sailor appears in Anderson's room. Anderson is completely freaked out. Who is the ghost and why hasn't he crossed over? But most importantly, what does he want with Anderson? Anderson, Greg, and Julie set out to find the truth and are soon wrapped up in a mystery that's over seventy years old. But it quickly becomes a race against the clock as they search to put the clues of sailor's life together before he vanishes for good. After everything he gave for his country, can Anderson, Julie, and Greg solve the mystery of the ghost before he disappears forever?

This is the deeply reported, riveting account of a war waged on many levels--military, financial, covert--that most don't realize America has been engaged in for years. For over a decade, against the backdrop of the Middle East, Central Asia and the Far East, the United States and Iran have been engaged in a conflict as significant as it is hidden from view. Using a combination of economic sanctions, assassinations, global diplomacy and intelligence work, the United States has struggled to stabilize and contain what it sees as the most alarming foreign policy threat we face, while at the same time Iran has used the overthrow of Saddam Hussein and their own formidable intelligence networks and proxies to undermine the United States' foothold in the Middle East. Through missed opportunities, miscommunication, and mistrust the two nations periodically moved toward and backed away from moments of understanding and compromise. Even as Iran built up their nuclear technologies, they were eventually brought to the negotiation table under crushing sanctions. Jay Solomon provides an unprecedented glimpse into the power struggle that the United States and Iran are locked into and the machinations that led to a historic agreement.

Ryan Smithson joined the Army Reserve when he was seventeen. Two years later, he was deployed to Iraq as an Army engineer. In this extraordinary and harrowing memoir, readers march along one GI's tour of duty. It will change the way you feel about what it means to be an American.

When you buy this book you get an electronic version (PDF file) of the interior of this book. The perfect coloring book for every child that loves ghosts. 40 coloring pages haunted by ghosts.
