The Literary 100 by Daniel S. Burt is "a ranking of the most influential novelists, playwrights, and poets of all time." But for most readers, it provides something much more interesting: a succinct explanation of what made these writers great. For example, we hear about Shakespeare often enough that we are not surprised to see him on top of the list.

Here is the revised and expanded edition of Daniel S. Burt's fascinating assessment of the 100 most influential novelists, playwrights, and poets of all times and cultures now with 25 additional entries and some reassessments as well as 25 new black-and-white photographs and illustrations. From Doris Lessing and Gabriel Garc a M rquez to Homer and Marcel Proust, the entries provide a compelling, accessible introduction to significant writers of world literature. All of the writers selected have helped to redefine literature, establishing a standard with which succeeding generations of writers and readers have had to contend. The ranking attempts to discern, from the broadest possible perspective, what makes a literary artist great and how that greatness can be

measured and compared. Each profile distills the essence of the writer's career and character to help prompt consideration of literary merit and relationships by the reader.

Compiled through consultation with literary scholars, provides a survey of writers who have had a profound impact on literature and the world, examining each writer's life, career, and lasting legacy.

Some of the most influential and interesting people in the world are fictional. Sherlock Holmes, Huck Finn, Pinocchio, Anna Karenina, Genji, and Superman, to name a few, may not have walked the Earth (or flown, in Superman's case), but they certainly stride through our lives. They influence us personally: as childhood friends, catalysts to our dreams, or even fantasy lovers. Peruvian author and presidential candidate Mario Vargas Llosa, for one, confessed to a lifelong passion for Flaubert's Madame Bovary. Characters can change the world. Witness the impact of Solzhenitsyn's Ivan Denisovich, in exposing the conditions of the Soviet Gulag, or Harriet Beecher Stowe's Uncle Tom, in arousing anti-slavery feeling in America. Words such as quixotic, oedipal, and herculean show how fictional characters permeate our language. This list of the Fictional 100 ranks the most influential fictional persons in world literature and legend, from all time periods and from all over the world, ranging from Shakespeare's Hamlet [1] to Toni Morrison's Beloved [100]. By tracing characters' varied incarnations in literature, art, music, and film, we gain a sense of their shape-shifting potential in the culture at large. Although not of flesh and blood,

fictional characters have a life and history of their own. Meet these diverse and fascinating people. From the brash Hercules to the troubled Holden Caulfield, from the menacing plots of Medea to the misguided schemes of Don Quixote, The Fictional 100 runs the gamut of heroes and villains, young and old, saints and sinners. Ponder them, fall in love with them, learn from their stories the varieties of human experience--let them live in you.

Ranks, according to influence, history's one hundred greatest literary figures, East and West, from Shakespeare to Oscar Wilde, and discusses each writer's life, works, cultural context, and personal and artistic development. 25,000 first printing. \$25,000 ad/promo.

Rates and evaluates one hundred noteworthy novels, from the medieval Japanese "Tale of Genji" to contemporary works, and provides summaries, details about their origins, critical opinions, and an account of their impact.

A list of the one hundred most influential people in history features descriptions of the careers, contributions, and accomplishments of the political and religious leaders, inventors, writers, artists, and others who changed the course of history. Simultaneous.

The Novel 100, Revised Edition is a unique reference that profiles great novels drawn from all cultures and periods of literature. Each entry provides a plot summary and assessment of a particular novel, with an emphasis on facts about the novel's creation, critical reception, and contribution to literary history. For this revised edition, Daniel S. Burt has reevaluated the original list and added entries on 25 additional novels, including Margaret Atwood's *The Handmaid's Tale*, Jane Austen's *Persuasion*, Charles Dickens's *David Copperfield*, Philip Roth's *American Pastoral*, and Salman Rushdie's *Midnight's Children*. Featuring an index and a helpful bibliography, *The Novel 100, Revised Edition* is sure to engage readers in a spirited discussion of literary values. Among the works selected are: *Don Quixote* (Miguel de Cervantes) *The Dream of the Red Chamber* (Cao Xuequin) *The Great Gatsby* (F. Scott Fitzgerald) *In Search of Lost Time* (Marcel Proust) *Invisible Man* (Ralph Ellison) *One Hundred Years of Solitude* (Gabriel García Márquez) *Pride and Prejudice* (Jane Austen) *The Scarlet Letter* (Nathaniel Hawthorne) *The Stranger* (Albert Camus) *Their Eyes Were Watching God* (Zora Neale Hurston) *Things Fall Apart* (Chinua Achebe) *Ulysses* (James Joyce) *War and Peace* (Leo Tolstoy) *Wuthering Heights* (Emily Brontë).

Presents literary criticism of one hundred plays of world literature, providing plot summaries for each play, a profile of the author, and an assessment of the play's characters and major themes.

Details the books that have forever changed civilization, from the Bible and the Koran to Darwin's Origin of the Species and Freidan's Feminine Mystique, and includes a historical overview and fascinating facts for each author and book, and much more. Original.

Is Hitler bigger than Napoleon? Washington bigger than Lincoln? Picasso bigger than Einstein? Quantitative analysts are rapidly finding homes in social and cultural domains, from finance to politics. What about history? In this fascinating book, Steve Skiena and Charles Ward bring quantitative analysis to bear on ranking and comparing historical reputations. They evaluate each person by aggregating the traces of millions of opinions, just as Google ranks webpages. The book includes a technical discussion for readers interested in the details of the methods, but no mathematical or computational background is necessary to understand the rankings or conclusions. Along the way, the authors present the rankings of more than one thousand of history's most significant people in science, politics, entertainment, and all areas of human endeavor. Anyone interested in history or biography can see where their favorite figures place in the grand scheme of things.
