Three months ago, I lost my foster sister, Sienna, to the darkness. As in blood magic and chaos and general mayhem. No one saw it until it was too late, but I should have. Now, I have a wounded heart and soul that I can't even reveal to anyone around me, because I'm supposed to hate Sienna with the fiery passion of the justified. And I do. I just wish I didn't feel so lost without her, so unsure of the path I thought I had carved for myself, and so outclassed by the powerful Adepts constantly by my side these days. I'm not even sure if they're with me for my own protection or because my shiny new powers are rare and valuable. Assuming I ever figure out who or what I am, and how my magic actually works. Even chocolate can't save the day every time ... just most of the time. At least I've got that going for me.

Over one billion people under the age of eighteen live in territories affected by armed conflict. Despite this, scholars and practitioners often lack a comprehensive knowledge of how children both struggle within and shape conflict zones. *Children and Global Conflict* provides this understanding with a view to enhancing the prospects of conflict resolution and peacebuilding. This book presents key ideas and issues relating to children's experiences of war, international relations and international law. The authors explore the political, conceptual and moral debates around children in these contexts and offer examples and solutions based on case studies of child soldiers from Vietnam, child forced migrants in Australia, young peace-builders in post-conflict zones, youth in the international justice system, and child advocates across South Asia and the Middle East.

Oh I Do Like to Be Beside the Seaside - Christopher Fowler Christopher Fowler explains "' . . . Seaside' came about firstly because I was commissioned to write a story for the World Horror Convention souvenir book and, as the event was to take place in Brighton, it seemed logical to set a tale on the South coast of England. "I had written a fantasy novel, *Calabash*, some years earlier, hinting at the dark madness of such seaside towns, which are the antithesis of their

Mediterranean counterparts. I thought of the depressing Morrissey song "Every Day is Like Sunday", which captures the awfulness of English resorts. "Coincidentally, Kim Newman and I were discussing the inherent creepiness of pantomime dames, and I decided it was time to give vent to my horror of these coastal pleasure domes. I wish I'd thought to include screaming gangs of hen-nighters as well. And I thought it was a nice touch to have everyone in the story telling the hero to 'fuck off' until he finally does." Featherweight - Robert Shearman "I don't like writing at home much," admits the author. "Home is a place for sleeping and eating and watching afternoon game shows on TV. There are too many distractions. So, years ago, I decided I'd only write first drafts in art galleries. "And the best of them all is the National Gallery, in London, a pigeon's throw from Nelson's Column. I can walk around there with my notebook, thinking up stories - and if I get bored, there are lots of expensive pictures to look at. Perfect. "A lot of those paintings, however, have angels in them. They're all over the place, wings raised, halos gleaming - perching on clouds, blowing trumpets, hovering around the Virgin Mary as if they're her strange naked childlike bodyguards. And I began to notice. That, whenever the writing is going well, the angels seemed happy, and would smile at me. And whenever the words weren't coming out right, when I felt sluggish, when I thought I'd rather take off and get myself a beer, they'd start to glare. "I wrote this story in the National Gallery. Accompanied by a lot of glaring angels. Enjoy." Lesser Demons - Norman Partridge "I was surprised to receive an invitation for S.T. Joshi's Black Wings," reveals Partridge, "an anthology of Lovecraftian fiction. Although I knew S.T. admired my work, I've never quite seen myself as a Mythos writer. "While I respect H.P. Lovecraft and his contribution to horror, I've never felt that his worldview (or maybe I should say universeview) meshed with mine. "In the

end, that's what made the story work . . . at least for me. I concentrated on my differences with Lovecraft, and approached the material from a place where Jim Thompson would be more comfortable than HPL. And I'm delighted that so many people have enjoyed the tale - it was a lot of fun to write."

What is the meaning of life? No question could be so simply stated and yet so difficult to answer. Though over the ages countless souls have long yearned for an answer, while others, both ignorant and wise, have proudly proclaimed to have solved this most perplexing of human riddles. Abandoning all assumptions, Horizon Infinity is a meandering glimpse into one man's own journey for answers, examining as he does traditional claimants to meaning and purpose, while seeking out a sense of significance and purpose in line with scientific sensibilities and understanding. Acknowledging the epidemics of anxiety, depression, and existential crisis, which seem to increasingly plague individuals, as well as the effect that these have on humanity and its future, Arnold forges his own system of beliefs from the fires of old, with a view to them fostering a better future for all. Horizon Infinity is both inspirational and insightful, and sure to be influential in any reader's own search for significance and meaning.
