Designed for pre-service teachers and teachers new to the field of ELT, Volume II and its companion are companion textbook, Volume I, are volumes organized around the key question: What do teachers need to know and be able to do in order for their students to learn English? Volume I covers the characteristics of the context in which teachers work, how English works and how it is learned, and the teacher's role in the larger professional sphere of English language education. Volume II covers the three main facets of teaching: planning, instructing, and assessing. The focus throughout is on outcomes, that is, student learning. The texts work for teachers across different contexts (countries where English is the dominant language, one of the official languages, or taught as a foreign language); different levels (elementary/primary, secondary, college or university, or adult education), and different learning purposes (general English, workplace English, English for academic purposes, or English for specific purposes).

The new edition of Toward Speaking Excellence addresses the recent changes to the Test of Spoken English (TSE(R)). The text introduces readers to the format of the new TSE(R), typical questions, and scoring criteria. The second edition of Toward Speaking Excellence includes actual student responses that are used or modified to highlight specific characteristics of effective communication. Two complete sample TSE(R)-like tests are included for further practice. Also provided are practice with some of the skills that, while no longer tested on the TSE(R), are key to sounding more native-like and fluent. Toward Speaking Excellence may be used as an individual study tool or as a course text. While the material is directed toward the TSE(R) and SPEAK(R) tests, the communication strategies presented will prepare students for other types of oral exams (including the TAST(R), interviews, and performance tests. Toward Speaking Excellence is a course book but may also be used for individual test-preparation/self-study. Dean Papajohn is a Specialist in Education at the Center for Teaching Excellence, University of Illinois, Urbana-Champaign..

High pressure processing technology has been adopted worldwide at the industrial level to preserve a wide variety of food products without using heat or chemical preservatives. High Pressure Processing: Technology Principles and Applications will review the basic technology principles and process parameters that govern microbial safety and product quality, an essential requirement for industrial application. This book will be of interest to scientists in the food industry, in particular to those involved in the processing of products such as meat, fish, fruits, and vegetables. The book will be equally important to food microbiologists and processing specialists in both the government and food industry. Moreover, it will be a valuable reference for authorities involved in the import and export of high pressure treated food products. Finally, this update on the science and technology of high pressure processing will be helpful to all academic, industrial, local, and state educators in their educational efforts, as well as a great resource for graduate students interested in learning about state-of-the-art technology in food engineering.

This book contains the compilation of studies from a 5-year project aimed at improving the Chinese teaching and learning as a second language, for non-Chinese speaking preschoolers in Hong Kong. In this project, a home-school-community model was used in an attempt to address the teaching and learning of Chinese for non-Chinese speaking preschoolers, moving from a traditional school centred teaching approach to a holistic approach. This allows them to learn in the same space and environment on the same topics, creating an inclusive classroom that does not compromise the teaching and learning of Chinese for both local and non-Chinese speaking preschoolers. Issues such as medium of instruction, language progression, silent period, multicultural teaching assistants, multilingual learning facilitators, parent changes, and effective teaching are studied and discussed.

The Sourcebook for Political Communication Research will offer scholars, students, researchers, and other interested readers a comprehensive source for state-of-the-art/field research methods, measures, and analytical techniques in the field of political communication. The need for this Sourcebook stems from recent innovations in political communication involving the use of advanced statistical techniques, innovative conceptual frameworks, the rise of digital media as both a means by which to disseminate and study political communication, and methods recently adapted from other disciplines, particularly psychology, sociology, and neuroscience. Chapters will have a social-scientific orientation and will explain new methodologies and measures applicable to questions regarding media, politics, and civic life. The Sourcebook covers the major analytical techniques used in political communication research, including surveys (both original data collections and secondary analyses), experiments, content analysis, discourse analysis (focus groups and textual analysis), network and deliberation analysis, comparative study designs, statistical analysis, and measurement issues.

Why is BASIC MARKETING RESEARCH the best-selling marketing textbook? It is a best seller because it's written from a student's perspective. Authors Brown, Suter, and Churchill know that for a marketing textbook to be effective, students have to be able to understand it. And they've achieved that time and again. This edition is packed with the features that made it a best-seller in the first place, from study tools to updated content to an easy-to-read writing style. Plus, in this volume you'll learn more about how experts gather data and how to use it yourself to turn greater profits.
