The third chapter investigated the level of use of wood in houses. In the fourth part, the value judgments of individuals toward use and preference of wooden goods (household items, decorative articles, etc.) and furniture, which cover the subjects of the first three chapters, was examined using the quinary Likert Scale.

Consumer attitudes toward preference and use of wood ...  
Understanding is enhanced by several case studies covering a wide range of industrial sectors. The fourth edition contains updated material, rewritten chapters and additional case studies. View
