The two-volume set LNICST 236-237 constitutes the post-conference proceedings of the 12th EAI International Conference on Communications and Networking, ChinaCom 2017, held in Xi'an, China, in September 2017. The total of 112 contributions presented in these volumes are carefully reviewed and selected from 178 submissions. The papers are organized in topical sections on wireless communications and networking, satellite and space communications and networking, big data network track, multimedia communications and smart networking, signal processing and communications, network and information security, advances and trends of V2X networks.

PLEASE NOTE: THIS IS VOLUME 2 OF 2. YOU MUST PURCHASE BOTH BOOKS TO HAVE A COMPLETE SET. Developed as both an air superiority fighter and a long-range naval interceptor, Grumman's F-14 Tomcat was the U.S. Navy's primary fighter from 1974 until 2006. Over 700 were built. The F-14 flew its first combat missions shortly after its initial deployment in late 1974, flying in support of the American withdrawal from Saigon. In 1981 it drew first blood, as two F-14s from VF-41 downed two Libyan Su-22s. The plane compiled a notable combat record for the United States in both Gulf Wars and NATO actions in Bosnia. Planes sold to the Shah of Iran prior to his ouster remain the last F-14s in active service, as the U.S. Navy retired it in October 2006. This F-14 pilot's flight operating handbook was originally produced by the U.S. Navy. It has been slightly reformatted but is reproduced here in its entirety. It provides a fascinating view inside the cockpit of one of history's great planes.

This manual fully prepares applicants for the civil PE exam--by far the most popular of the PE disciplines. Every exam subject is thoroughly covered, with illustrations and practice problems to heighten the reader's understanding. Also included are test-taking strategies and exam information., indexed.

The chemical PE exam is an eight-hour, open-book test, consisting of 80 multiple-choice problems. It is administered every April and October. The Chemical Engineering Reference Manual is the primary text examinees need both to prepare for and to use during the exam. It reviews current exam topics and uses practice problems to emphasize key concepts. The Chemical Engineering Reference Manual provides a detailed review for engineers studying for the chemical PE exam, preparing them for what they will find on test day. It includes more than 160 solved example problems, 164 practice problems, and test-taking strategy.

"Religion 261, Introduction to Family History, is a one-semester course in which you will learn gospel doctrines and principles essential to the work of redeeming the dead and how to find information about your ancestors that is needed to perform saving ordinances for them. The Lord

has revealed that a great missionary effort is under way in the spirit world (see D&C 138:28–37). You become part of this great work when you identify your ancestors who did not receive the essential gospel ordinances in this life. It is your privilege to be baptized, confirmed, endowed, and sealed in their behalf in the temple, and males may receive the Melchizedek Priesthood for deceased males there. In this way all of our Heavenly Father's children can come unto Christ and be perfected in Him. President Wilford Woodruff (1807–98) spoke about the significance of the work of redeeming the dead: "I wish many times that the veil were lifted off the face of the Latter-day Saints. I wish we could see and know the things of God as they do who are laboring for the salvation of the human family who are in the spirit world; for if this were so, this whole people, with very few, if any, exceptions, would lose all interest in the riches of the world, and instead thereof their whole desires and labors would be directed to redeem their dead, to perform faithfully the work and mission given us on earth; so that when we ourselves should pass behind the veil and meet with Joseph and the ancient apostles, and others who are watching over us and who are deeply interested in our labors, we might feel satisfied in having done our duty" (The Discourses of Wilford Woodruff, ed. G. Homer Durham [1946], 152)."
