Hundreds of resource libraries are available for use with the Vectorworks application, and you can add custom libraries, as well. In the Resource Manager palette, the file browser pane (on the left) provides easy access to the resource libraries; for even faster access, designate frequently used libraries as "favorites."

**Resources--Vectorworks**

Select File > Save. The Save Vectorworks Drawing dialog box opens. Select the location for saving the file. Place the library file in the appropriate location (user or workgroup, default or not), depending on how you want to access it.

**Creating Custom Resource Libraries--Vectorworks**

During installation you are required to enter the serial number provided with the Vectorworks product (s). You may also need to update a serial number later to enable more products or to switch from an evaluation version to a full version. To add a serial number: Click Serial Numbers from the Session tab of Vectorworks preferences.

**Adding and Removing Serial Numbers--Vectorworks**

The Vectorworks Remote App connects your mobile device to your Vectorworks application using a remote connection plug-in. The app turns your mobile device into a remote, so you can view, navigate, and present designs without having to be at your desktop. This is great for group reviews and presentations.

**Installing Vectorworks Remote+Vectorworks-Cloud-Serviees**

Most palettes can be docked to any of the four drawing window edges, or snapped to other docked palettes. The Object Info palette, Resource Browser, Attributes palette, and Working Planes palette can only be docked to the left and right window edges. On Mac, only Tool and Snapping palettes can dock to the top and bottom of the document window.
