This book, Wider Than the Sky, is less methodically structured, almost to the point where it seems randomly organized.

Wider Than the Sky includes brief descriptions of Edelman's earlier ideas. This book puts the emphasis on arguing that the theory is appropriate for description of consciousness emergence, and also on how the theory relates to ideas of a few philosophers or psychologists.

~~Wider Than the Sky: The Phenomenal Gift of Consciousness ...~~

A pretty technical and dense book, Wider Than the Sky aims to provide a consistent scientific theory on the emergence of consciousness from the neural base, without delving into speculation (such as quantum consciousness) resolving to dualism (mind/body), but focusing on embodiment - the fact that brain develops in a different way for every person, and

published the book in 2004. The book includes a glossary, a bibliographic note, and an index. The title alludes to an English-language poem written by Emily Dickinson in about 1862 .

~~Wider than the Sky - Wikipedia~~

Wider than the Sky now summarizes his thinking in readily accessible form for the general public. This view of consciousness is intellectually ambitious, original, and imaginative. ” —Eric Kandel, M.D., Columbia University. “ Consciousness is a hot topic, but still a mystery.

~~Wider Than the Sky | Yale University Press~~

and also on how the theory relates to ideas of a few philosophers or psychologists.

~~Wider Than the Sky: The Phenomenal Gift of Consciousness ...~~

The book, appropriately, opens with a poem by Emily Dickinson which describes the brain as "wider than the Sky," "deeper than the sea," and "just the weight of God." In this way Dr. Edelman affirms that to explain consciousness is no easy task, but it is nonetheless the task which he undertakes, and he mostly succeeds.

~~Amazon.com: Customer reviews: Wider Than the Sky: The ...~~

"Wider than the Sky" offers a concise scientific explanation of human consciousness to readers with no previous formal education in neurobiology. It avoids the metaphysical and mystical (what Edelman calls "spooky forces") and
