I enjoy my writing whenever it's used, although I consume it pretty infrequently. Any stimulant above the strength of adderall can only either give me a frenetic or muted state of being, so I've found writing under its influence pretty pleasant. As >>16609069 states, though, the medication won't assist your writing in of itself. Ask yourself beforehand if your dissatisfaction with writing now comes from actual inattention, or if you are just dissatisfied with the end results.
