Women War And Work The United States Cornell

Women were suddenly in demand for work on the land, on transport, in hospitals, and most significantly, in industry and engineering. Women were involved in the vital munitions factories, building ships and doing labor, such as loading and unloading coal. Few types of jobs were not filled by women by the war's end.

During the Civil War, Kate Cumming and Phoebe Pember tended to hundreds of soldiers in the South. In the North, women like Mary Livermore and the indefatigable Clara Barton made their voices heard in the highest halls of power, successfully advocating for reforms based on their experiences as nurses during the war. These reforms had a lasting and positive impact on the quality of medical care in the United States.

Women in War | American Battlefield Trust

Although women had worked in some industries for many years, the First World War brought women into the workplace on a scale never before witnessed. Not only this, but in many cases these women came from the middle classes who had never previously experienced manual work. The most usual occupation for women pre-war was domestic service.
