As the story is condensed into 100 pages, the thrill of the chase is almost non-stop. I read the whole book in around an hour and was totally gripped throughout.

Luis takes The Book of Memories home and things get crazy in this third zany novel, part of the all-new In Due Time series. When librarian Valerie Tremt gives student Luis Ramirez a chance to go back in time, he knows just what he wants to do. He plans to go back to 1696 and see exactly where Captain William Kidd left buried treasure, and then return to the spot and retrieve it. He'll be rich and famous! But when he returns from his time traveling adventure without any treasure, he is inconsolable. To make matters worse, his older brother Rafael doesn't believe he time traveled at all. Luis decides there's only one way to convince him. He brings The Book of Memories home to show Rafael, despite Ms. Tremt's warning that the book is never to leave the library without her permission. Luis ignores her warning—after all, it's just a book. What could possibly go wrong? Turns out—a lot. When Luis wakes up to find a Viking, Charlie Chaplin, and King Tut wandering around his house, he realizes Ms. Tremt's warning was no joke. The good news is now Rafael believes him. The bad news is that it's not going to be easy to get these historical figures back to their proper time periods, especially because none of them want to go home! Can Luis find a way to put everything—and everyone—in the right place before time runs out?

I never wanted to be a hero, but I pride myself on always doing the right thing. Would you? Seems quite an easy question when we're talking hypothetically. I bet most of you sitting there would think that you always do the right thing. I am not here to judge, far from it, but ask yourself this... if doing the right thing came at a cost, would you still do it? Not quite the easy answer now is it?! I did the right thing and I think it's safe to say that it cost me... everything! Who am I? That doesn't matter, what matters is what happens next...

Wrong Place is the second gripping crime novel in the DC Maggie Neville series from Michelle Davies, following her critically acclaimed debut Gone Astray. Two women lie hospital beds, both subjects of police investigations. One, a vulnerable old lady, has been assaulted in her own home. Suspected to be the fifth victim of a young couple targeting pensioners, her injuries indicate an escalation in violence from the perpetrators. The second, a wife, has been attacked by her own husband, who subsequently fails in his own attempt to kill himself. Whilst there are no obvious parallels between the victims, DC Maggie Neville, the Family Liaison Officer involved in both cases, begins to question what happened. Is it simply a case of both being in the wrong place at the wrong time or is something far more sinister at play?

INSTANT NEW YORK TIMES BESTSELLER "One of the most important books I've ever read—an indispensable guide to thinking clearly about the world." — Bill Gates "Hans Rosling tells the story of 'the secret silent miracle of human progress' as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly." —Melinda Gates "Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." - Former U.S. President Barack Obama Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world's population live in poverty; why the world's population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, Factfulness is an

urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- “This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn’t enough. But I hope this book will be.” Hans Rosling, February 2017.

Four women—friends, family, rivals—turn to online dating for companionship, only to find themselves in the crosshairs of a tech-savvy killer using an app to target his victims in this harrowing thriller from the New York Times bestselling author of *See Jane Run* and *The Bad Daughter*. Online dating is risky—will that message be a sweet greeting or an unsolicited lewd photo? Will he be as handsome in real life as he is in his photos, or were they taken ten years and twenty pounds ago? And when he asks you to go home with him, how do you know it’s safe? The man calling himself “Mr. Right Now” in his profile knows that his perfect hair, winning smile, and charming banter put women at ease, silencing any doubts they might have about going back to his apartment. There, he has a special evening all planned out: steaks, wine, candlelight . . . and, by the end of the night, pain and a slow, agonizing death. Driven to desperation—by divorce, boredom, infidelity, a beloved husband’s death—a young woman named Paige, her cousin and rival Heather, her best friend, Chloe, and her mother, Joan, all decide to try their hand at online dating. They each download an app, hoping to right-swipe their way to love and happiness. But one of them unwittingly makes a date with the killer, starting the clock on a race to save her life. New York Times bestselling author Joy Fielding has written a complex, electrifying thriller about friendship, jealousy, and passion—a deadly combination.

Whether it manifests itself as worry, fear, rumination, obsession, compulsion, or shyness, anxiety is everywhere, and it causes no end of trouble for just about all of us. But at its core, anxiety serves an important purpose: to neutralize uncomfortable ambiguities. This book begins with a whirlwind tour of anxiety: what causes it, what we think about it, and what it might look like. Then the book looks at some of the approaches to treating anxiety and poses an intriguing question: What if you don't need to get rid of anxiety in order to live a terrific life? *Things Might Go Terribly, Horribly Wrong* approaches this breakaway hypothesis through the mechanisms of acceptance and commitment therapy (ACT) and presents a series of thinking points and short games readers can do to easily and effectively begin to incorporate ACT techniques into their lives. This book is not a full-scale self-help approach for someone with serious anxiety problems, but an easy way for readers who have wrestled with worry, fear, and shyness to put those feelings into perspective and focus instead on what they want to do in life. This book will help readers foster the flexibility they need to keep from succumbing to the avoidant forces of anxiety and open themselves to the often uncomfortable complexities and possibilities of life.
